# FIGHT AGAINST FAMINE

Food scarcity is world wide and present high prices are but the certain indication of famine to follow.

## AMERICAN FARMERS MUST SAVE THE WORLD FROM STARVATION

Every citizen of Colorado must awaken to the serious situation that confronts the Nation and every man, woman and child is asked to do their "Bit" in this struggle for Democracy and Civilization. Your country demands your aid.

**ARMS AND AGRICULTURE** are the two great factors that will bring victory. Systematic food production is imperative. We must produce for our own consumption and for our Allies in the battle fields. Our armed forces are organized. The agricultural forces must be organized.

## COMPLETE ORGANIZATION NECESSARY IN EVERY COUNTY

**ORGANIZE TO PRODUCE MORE  
ORGANIZE TO CONSUME LESS  
ORGANIZE TO STOP WASTE**

In 1915 this country produced over a Billion bushels of wheat; in 1916 the crop was only a little over Six Hundred Million bushels; this year only Four Hundred Million bushels are indicated.

Only by the closest economy can we make present food supplies carry us through to the harvest. Only the utilization of every acre will prevent absolute famine next year.

## WHAT ARE YOU DOING ABOUT IT ?

The Nation expects everyone to do his duty. There is work for everyone. There must be an organization in every school district, one in every voting district. These organizations should contain Farmers, Merchants, Bankers, Lawyers, Doctors, Women, Boys and Girls.

## PROFITABLE PRICES POSITIVE

Over-production impossible. Under-production means hunger.

**LET US SHOW THE WORLD WHAT COLORADO CAN DO IN AGRICULTURE.**

**JULIUS C. GUNTER, Governor.**

**J. K. MULLEN, Chairman State Ways and Means Committee, Capitol Bldg. Denver.**
